IMPORTANT INFORMATION BELOW:

By confirming this artwork approval document you acknowledge that you the customer, have checked all the points on the checklist and approve the order for production. The customer is aware that, within reason, there may be some variations in the final printed product and that the mockup shown is only a representation of the final printed colour and position. (Colour variations can occur across different screens and monitors and this makes it almost impossible to confirm the colour of the print without a specified pantone colour, we use Pantone solid coated colours).
